

Even If You Don't

Ween

I'm goin' crazy trying to keep you sane
Takin' my prescriptions, forging my name
I was happy this morning, ya finally got yourself dressed, eatin all the bacon
Its okay i was still impressed

I love you, even if you don't
you've got your knife up to my throat, what do you want to see with me?

Rooting through the garbage for treasures in the trash pile, see in my expression will always make you smile
Please don't touch my phone book, my friends are getting pissed off
Ya wake em I'm the morning, I'm acting like a jerkoff

I love you, even if you don't
you've got your knife up to my throat, what do you want to see with me?

I love you, even if you don't
you've got your knife up to my throat, what do you want to see with me?

I love you, even if you don't
you've got your knife up to my throat, what do you want to see with me?

Ooh-yeah-yeah
