

Living In L.A.

Weezer

I'm back in black
No one to hold my hand
It seems that we're together but alone
And now I hear the ticking of a clock
I know we're going down a slippery slope

I wonder what it's like out there
My eyes are like far away spaceships
You are a sealed up door
There's gotta' be more to our lives than this

This girl I like
We're talking 'bout this girl I like
But I feel so lonely, feel so lonely
Yeah I'm living in LA
This girl I like
We're talking 'bout this girl I like
But I feel so lonely, feel so lonely
Yeah I'm living in LA

She'll never say pa' tell me what I want
We've always been a two way radio
Hallmark cards written by a sphinx
We sacrifice our lives for rock and roll

I wonder what it's like out there
My eyes are two far away spaceships
You are a sealed up door
There's gotta' be more to our lives than this

This girl I like
We're talking 'bout this girl I like
But I feel so lonely, feel so lonely
Yeah I'm living in LA
This girl I like
We're talking 'bout this girl I like
But I feel so lonely, feel so lonely
Yeah I'm living in LA

Looking for a fight, looking for a fight
And I'm still trying to figure out my life
Pretending we don't want each other
Alrighty now
Looking for a fight, looking for a fight
Give his last name back and take mine
If she wants me to touch her

This girl I like
We're talking 'bout this girl I like
But I feel so lonely, feel so lonely
Yeah I'm living in LA

This girl I like
We're talking 'bout this girl I like
But I feel so lonely, feel so lonely
Yeah I'm living in LA
This girl I like

We're talking 'bout this girl I like
But I feel so lonely, feel so lonely
Yeah I'm living in LA
