

Too Many Thoughts In My Head

Weezer

Stayed up reading Mary Poppins
Overwhelmed by Netflix options
Boy found brains he never knew he had
Meet me there in London Canyon
Fuel up, bitch, there's no more slackin'
Moses looks upon the promised land

I'm so high on cookies, it's insane

Too many thoughts in my head, now
I can't get out of my brain
Think I've been running in circles
Feel like I'm going insane
I had a fucking night and my brain needs a break
I had a fucking night and my brain needs a break
'Cause there's too many thoughts in my head, now
I can't get out of my brain

Tried to get my thoughts on paper
Comb my hair like I'm a gangster
Gotta do the dog and pony show
Algorithms sure ain't helping
Prefrontal cortex is melting
I'm going where the weather suits my clothes

I'm so high on Chopra, it's insane

Too many thoughts in my head, now
I can't get out of my brain
Think I've been running in circles
Feel like I'm going insane
I had a fucking night and my brain needs a break
I had a fucking night and my brain needs a break
'Cause there's too many thoughts in my head, now
I can't get out of my brain

I never wanted to be lonely
I never thought that life would turn out like this
I never thought that I'd feel empty
I'm really tired of this Lawrence Welk shit

Too many thoughts in my head, now
I can't get out of my brain
Think I've been running in circles
Feel like I'm going insane
(Feel like I'm going insane)

Nothing can titillate me
Dried up like a dead battery
Throw me upon the heap
Gonna be reused but it won't be me
Can't seem to get connected
What was the name of the network?
Dumb thoughts with a dumb program
I need a life with a little more RAM

Too many thoughts in my head, now

I can't get out of my brain
Think I've been running in circles
Feel like I'm going insane
