

## Sycophant

White Lung

It's been so long  
Where did he go?  
A dope like Hell  
A man worth dough  
You pretty thing,  
I chew like tar  
My world's the whip,  
Get in the car with me

It's burning you  
It's hurting you  
And when it hit me  
I lied  
I lied

Illiterate  
And by my side  
Set the table,  
Sycophant tide  
I'm the fear  
And you're the dark  
Leave your mark on me

It's burning you  
It's hurting you  
And when it hit me  
I lied  
I lied

What now?
