

Thank Your Lucky Stars

Whitehouse

Your number's come up, honey
And so has my cock
The chips are down
And so are your wet panties

You came up trumps babe
When I came up your ass
If you wanna see my hand
You gotta suck my cock

Don't talk to me about lady luck
When, lady, I want more than a fuck
A black cat crossed your path today
And your pussy's crossed mine

Get down on your knees and pray
'Cause, baby, this is gonna be your lucky day
Hey! You've hit the winning trail!
And what's for sure

My cock can't fail
Thank your lucky stars
Thank your lucky stars
Thank your lucky stars

Believe me babe
I ain't bluffing
Thank your lucky stars
