

# When I Said I Would

Whitney Duncan

The first time that I ever saw your face  
I felt something stop me in my place  
The kinda thing that you just can't see coming your way

I closed my eyes and I jumped right in  
Zero to sixty and to the win  
With my head held high like it was never coming home  
And I trusted you when you asked me to

When I said I would, tell me what was I thinking  
I gave my heart without even blinking  
That's all you got? Well baby that's just no good, whoa

Don't give me that line, you know I won't buy it  
You're as good as love as you are at lying  
You said 'Uh-huh' but I just don't think you understood  
When I said I would

I stood by you, played by the rules  
For a second I thought that you did too  
Makes me wonder how long you would have let me be a fool  
I gave it my best, this is what I get

When I said I would, tell me what was I thinking  
I gave my heart without even blinking  
That's all you got? Well baby that's just no good, whoa

Don't give me that line, you know I won't buy it  
You're as good as love as you are at lying  
You said 'Uh-huh' but I just don't think you understood  
When I said I would  
When I said I would

I'm taking back when I said I would love you  
I'm taking back every kiss that I gave you  
I'm taking back every promise I made you  
I'm taking back everything that I said

When I said I would, tell me what was I thinking  
I gave my heart without even blinking  
That's all you got? Well baby that's just no good, whoa

Don't give me that line, you know I won't buy it  
You're as good as love as you are at lying  
You said 'Uh-huh' but I just don't think you understood  
When I said I would  
When I said I would

Whoa, don't give me that line, you know I won't buy it  
You're as good as love as you are at lying  
You said 'Uh-huh' but I just don't think you understood  
When I said I would  
When I said I would
