

Make Time For Love

Will Downing

Girl, I know it's been a while
Since we've done the things we used to do
Like making love, I know it's a rough
'Cause we worked so hard but we must
Stop everything we're doing and take time for love
You are my [Incomprehensible]

We get turned on just holding hands like lovers do
Me and you, as we can do love making new
And laugh like we were young

Baby, let's chill and make time for love
Make time for everything that makes us one
Make time for love, make time for love

Sometimes we hold each other tight
Sometimes we're strangers in the night
You seem to come when I go
When we get together no one knows
But that's about to change

Baby, let's chill and make time for love
Make time for everything that makes us one
We've got to chill and make time for love
Make time for everything that makes us one
Take time for love, make time for love

Baby, let's chill and make time for love
Take time for everything that makes us one
Baby, we've got to chill and make time for love
Take time for everything that makes us one

Make time for love, make time for love
Make time for love, make time for love
Take time for loving, kissing and hugging
Take time for walking, laughing and talking
Take time for singing, dancing and praying

Take time for loving, for loving, for loving
Take time for loving, for loving, for loving
Take time for loving, for loving, for loving
