

# She

Will Downing

She's every word on the page and poems of love  
The greatest story I'll ever read  
She means the world to me, she

She's every flower in the spring, color of leaves in the fall  
And every bird with a song to sing  
Look at what God can bring, she

She is the light that will shine on my darkest days  
The air around me that I breathe

If she ever needs, I will be there  
No matter where on this earth, I'll go  
'Cause she's like the wind that blows free

She is the light that'll shine on my darkest days  
The air around me that I breathe

She is the rain from the sky, the rivers that flow  
To every ocean, to every sea  
There is but one for me

She quenches the thirst in me, yeah  
She, she, yeah, she, she, she  
She is the light, she is my life  
She means the world to me
