

Street Life

Will Downing

I still hang around neither lost nor found
Hear the lone lone lonely sound of music in the night
Lights are always bright that's all that's left for me yeah
I live the street life cause there's no place I can go
Street life it's the only life I know
Street life there's a thousand parts to play
Street life til you play your life away
Other people see just who you wanna be
And every night you shine just like a superstar
That's how the life is played a ten cent masquerade
Dress you walk you talk you're who you think you are

Street life you can run around from time
Street life for a nickel and a dime
Street life but you better not get old
Street life or you're going to feel the cold
There's always love for sale a grown up
Fairy tale prince charming always smiles behind the silver spoon

But if you keep it young your song is always on
You never pay your way beneath the silver moon
Street life Street life Street life oh Street life
Street life Street life Street life I'm talking about Street life

Street life you can run away from time
Street life for a nickel for a dime
Street life but you better not get old
Street life or you gonna feel the cold
There's always love for sale a grown up
Fairy tale prince charming always smiles behind the silver spoon

But if you keep it young your song is always on
You never pay your way beneath the silver moon
Street life yeah Street life Street life Street life Street life

Talk about that Street life
Street life I'm talking about Street life
Street life talking about that Street life Street life yeah talking about Street life
