

# New World Order

William Control

Everyone is infected  
Everyone is cruel  
I'm so very bored of the prospect  
I'm so very bored of the news

And everyone is infected  
Everyone is used  
And what we all need now is a change of perspective  
And what we need is a change of the rules

How long can a generation suffer?  
How long can a generation lose?

We need a New World Order  
We need a new kind of faith  
This is a New World Order  
Start to believe

Everyone here is neglected  
Everyone here is abused  
Now we all need a poet  
Someone strange to believe in

And what we need is a change of the rules

How long can a generation suffer?  
How long can a generation lose?

We need a New World Order  
We need a new kind of faith  
This is a New World Order  
Start to believe

We need a New World Order  
We need a new kind of faith  
This is a New World Order  
Start to believe

New World Order  
New World Order

Are you searching for someone?  
Isolation  
Are you searching for someone?  
Desperation  
Are you searching for someone?  
Inside

New World Orer  
I've got a new kind of faith

New World Order  
We need a new kind of faith  
This is a New World Order  
Start to believe

We need a New World Order

We need a new kind of faith  
This is a New World Order  
Start to believe
