

We Are Lovers

William Control

Dear Jude, I called upon the heavens
It answered me in black
The darkness is beautiful
I left the streets of London
And took a train to France
And watched as this world went mad

I know you can't save me from my destiny
I've got to go alone
I hope you read this letter soon
Don't think I'm coming home

I am the damned design
Panic in the streets tonight
Are we lovers?
Are we all entwined?
I am the damned design
Panic in their hearts and minds
I know we're lovers
Show me your death now
Show me the pain you crave

Dear Jude
Here I am in Deutschland
The Berlin Wall left in ruins
Now Cold War love and suffering
My lungs are filled with your shame

I know I can't save you from my destiny
I've got to go alone
I hope you read this letter soon
Don't think I'm coming home

I am the damned design
Panic in the streets tonight
Are we lovers?
Are we all entwined?
I am the damned design
Panic in their hearts and minds
I know we're lovers
I know we're all entwined

We are lovers
You are my lover, my life
We are lovers
Panic in the streets
You are my design
