

First Rose of Spring

Willie Nelson

The first time that he saw her
He knew everything had changed
Overnight love started blooming
Like the first rose of spring

Auburn hair like a sunrise
Sweetest smile he'd ever seen
Butterflies, they danced around her
Like the first rose of spring

Summertime would've never started
And wintertime would never end
She colored his life, opened his eyes
To things he'd never dream

Without the first rose of spring

Gave him children like a garden
They gave 'em all the love they'd need
To grow up strong, she made a home
And every year he'd bring
Her the first rose of spring

The last time he saw her
He knew everything had changed
He said goodbye and let the tears fall like rain
On the first rose of spring
