

# Don't Belong To You

Wipers

If I could change your mind I wouldn't waste much time I can surely see It's time we got set free We don't belong to you

Standing at my door Wonder what's next in store Try to invade our minds Better luck next time We don't belong to you

Can't you surely see You're trying to get to me Always hang around Acting like a clown We don't belong to you

Well if I could change your mind Would it take much time I can surely see It's time we got set free We don't belong to you
