

Lost

Within Temptation

My hope is on fire
My dreams are for sale
I dance on a wire
I don't want to fail her

I walk against the stream
Far from what I believe in
I run towards towards the end
Trying not to give in

She's lost in the darkness
Fading away
I'm still around here
Screaming her name
She's haunting my dreamworld
Trying to survive
My heart is frozen
I'm losing my mind

Help me, I'm buried alive
Buried alive

I'm burning the bridges
And there's no return
I'm trying to reach her
I feel that she yearns

I walk against the stream
Far from what I believe in
I run towards towards the end
Trying not to give in

She's lost in the darkness
Fading away
I'm still around here
Screaming her name
She's haunting my dreamworld
Trying to survive
My heart is frozen
I'm losing my mind

Help me, I'm buried alive
Buried alive

I tried to revive what's already drowned
They think I'm a fool
Can't realise,
Hope plays a wicked game with the mind
'Cause I thought that love would bind
I cannot revive what's already drowned
She won't come around

She's lost in the darkness
Fading away
I'm still around here
Screaming her name
She's haunting my dreamworld

Trying to survive
My heart is frozen
I'm losing my mind

Help me, I'm buried alive
Buried alive
