

## Stolen Hammer

Wizard

The dawn is breaking  
Light comes bright  
On the new day now awaking  
Giants Thor will fight  
He is looking everywhere  
For his mighty crusher  
The weapon is not there  
Bringing anger to the rusher  
Thrym has stolen Mjoellnir  
He wants Freyja as a prize  
For the weapon giants fear  
Don't think this to be wise  
See the eyes of redbear  
Filled with divine rage  
Asking Freyja as she neared  
To go into the giants cage  
But Freyja just refuse  
To be the hammers pawn  
Loki knows what trick to use  
Use brain instead of brawn

[Refrain:]

All giants died, the hammer's home  
And Freyja is still here  
One will someday challenge him alone  
But that is not anybody near!

Thor and Loki now disguise  
Themselves as Freyja and handmaid  
The mighty has to hide his eyes  
And both travel to their fate  
Thrym gladly hail his bride  
His pleasure was unseen  
He does not see what Thor did hide  
But had a notion of the mean  
Some things were strange to him  
And he was curious to know  
Loki swiftly starts the answering  
So the giant didn't see his foe  
A ritual shall seal the bond  
The hammer falls into the fold  
Rage breaks through and goes beyond  
Everything since days of old
