

Years Of War

Wizard

From the top of Asgard's mountains
Hear the Asen sing
Hail to the wizards
The mighty metal kings

So many years of war!
So many years of pain!
The blood of our enemies
Is fading with the rain

Man by man, sword by sword
Armies of the world!
We fight and die for metal
Not afraid to get hurt!

So many years of war
So many years of pain
Infinity is near!
The wizards will remain!

We still fight!
Many years of war!
We ride on thunder and lightning; fight!
Defenders of metal worldwide:
Never stop fighting!

We have mastered the time!
We survived all lies
Despised by envious kings like fire
Between ice!!

30 years of war
A war that never ends
Remember everyone we've lost
Family and friends
Man by man, brick by brick
An eternal fortress!
Nothing can destroy us!
We live forevermore!

My friend, the whirlewolf, roams the night
To be the guardian of our lives
This metal war will never end
So let me see your fucking hands!
This metal war will never end
So let me see your fucking hands!
This metal war will never end
So let me see your fucking hands!
