

# You're The King

Wizard

I am one of five brothers  
The legacy of crown  
I will give you respect  
My father in love  
Together we will hold  
Our tribe together  
Our family's blood  
The shield of our live  
I pray to the gods, for mercy and peace  
You're the King  
We follow your way  
You're the King  
In darkness we are born  
You're the King  
The sun our aim  
You're the King  
You taught us to handle  
In arms to live  
A sad way of fear  
A challenge to survival  
The world has changed  
The peace soaked in blood  
The scars in your faith  
A map of horror  
But our weapons feel clammy and warm  
You're the King  
We follow your way  
You're the King  
Together we are strong  
You're the King  
Together we belong  
You're the king
