

Sitting On Top Of The World

Worlds Apart

Sometimes when I was lost
And feeling so alone never did I ever think of letting go
The world was closing in
And I thought I couldn't win
You were there to pull me through into the light
Light of your love
And you raised my soul, up above
And now I know, now I know

Chorus:

I'm sitting on top of the world
Standing on the edge of the sky
Holding on to my dreams
Watching the world go by
Living in the light of the sun
Has shown me how to believe
That I can do anything
When you're with me

I've travelled many roads
And I guess that now I know
That it's love that makes the world go round and round
The things you gave to me have shown me what it means
To climb higher up and realise the love that's inside
Gave me reason to feel alive
And now I know, in my heart

Chorus

Heaven on this earth is what you've given me
You have shown me how to fly
And now my eyes can see
How your love has set me free
With you by my side
Together we can climb

Standing on the edge of the sky
Holding on to my dreams
Watching the world go by
I'm living in the light of the sun
Shown me how to believe
That I can do anything
When you're with me

Sitting on top of the world
And as far as I can see
I can do anything
Because you're with me
