

# We Could Be Beautiful

Wrabel

It's coming around again  
Feeling all in your head  
You never let me in  
We could be beautiful  
You've got the bluest eyes  
The colour of you and I  
I know it's hard sometimes  
We could be beautiful

Oh it's true  
You're the colour if you only knew  
Every star in the sky that's you  
If you saw you the way that I do  
We could be beautiful  
We could be beautiful

We could be beautiful  
We could be beautiful

We could just drive around  
Pack up and leave this town  
I don't have it figured out  
But we could be beautiful

Oh it's true  
You're the colour if you only knew  
Every star in the sky that's you  
If you saw you the way that I do  
We could be beautiful  
We could be beautiful

We could be beautiful  
We could be beautiful

It's coming around again  
We could be beautiful
