

I Never Once Stopped Loving You

Wynette Tammy

The nights were dark and long, I spent a million all alone
But I never once stopped loving you
My world was cold and still, my dreams lay unfulfilled
But I never once stopped loving you.

I never once stopped believing
We'd love again the way we used to do
And today when you came back my patience was rewarded
For I never once stopped loving you.

I could have loved another but I chose the way and suffered
For I never once stopped loving you
I prayed to God to guide you till I could be beside you
And I never once stopped loving you.

I never once stopped believing
We'd love again the way we used to do
And today when you came back my patience was rewarded
For I never once stopped loving you...
