

If This Is Our Last Time

Wynette Tammy

Even though the night is early there's a fire that whispers hurry

Darling please turn off the lights and lock the door

Come lay down here beside me tell me that I'm soft and pretty

And love me like you never have before

If this is our last time make it last me for a lifetime

Don't hold back the love you feel inside why should passion be ashamed

If this is our last time make it last me for a lifetime

Leave me with enough of sunshine to carry me through the rain

In the morning you'll be leaving but tonight there'll be no grieving

I'll have lots of time to cry when you're gone

Let's not waste one precious moment take all of me I'm still your woman

And love me up until the break of dawn

If this is our last time make it last me for a lifetime

Don't hold back the love you feel inside why should passion be ashamed

If this is our last time make it last me for a lifetime

Leave me with enough of sunshine to carry me through the rain
