

## Midnight Love

Wynette Tammy

He calls about 5:30 and tells me he'll be late  
He says he'll grab a bite to eat and tells me not to wait  
I go to bed at midnight and one he's still not in  
I hope he's drinkin' a with the boys and not with her again

Then he pulls into the driveway his key clicks in the lock  
He turns on the bathroom light and I glance at the clock  
He starts the shower runnin' it's almost three a.m.  
He washin' off that midnight love she left all over him

He's washin' off that midnight love the perfume and the sweat  
But there's more love goin' down the drain than the traces that  
she left  
All the water in the world won't clean up where he's been  
He's washin' off that midnight love she left all over him

He slips in bed and whispers sorry I'm so late  
I bite my lip and close my eyes pretend I'm not awake  
I can't bring myself to touch him after where he's been  
Cause he can't wash off that midnight love she left all over hi  
m

He's washin' off that midnight love the perfume and the sweat  
But there's more love goin' down the drain than the traces that  
she left  
All the water in the world won't clean up where he's been  
He's washin' off that midnight love she left all over him  
No he can't wash off that midnight love she left all over him
