

# Our Last Night Together

Wynette Tammy

Tonight is our last night together  
Soon you'll go home to your wife

When you leave you'll be taking with you  
My heart my dreams and my life

So walk with me, talk with me  
Torture me a little longer

Say you'll miss me, even kiss me  
Then you can go home to her

I've loved you so much in this short time  
I never thought that love could be

So right yet so wrong at the same time  
And you'll never belong to me  
So off with me, off with me  
So walk with me, talk to me  
Torture me a little longer  
Say you'll miss me, even kiss me  
Then you can go home to her  
Then you can go home to her  
Torture me a little longer

Say you'll miss me, even kiss me  
Then you can go home to her

Yes you can go home to her
