

The Woman I Am

Wynette Tammy

The woman I am will never show in me for anyone but you
For you bring out the best in me and you can see me through and
through
I know I never will be perfect so don't expect too much of me
And the woman I am is the woman I'll always be

The woman I am may appear to be like others you have known
But how I am and what I am helps keep our love this strong
I'm not buildin' me up in anyway and you won't put me down
It took a man like you to make me the woman I am

I'm not askin' you to do everything my way
Or expectin' you to listen to everything I say
But I'm depending on your guiding hand everyday that I'm around
And if I love you way too much that's just the woman I am
That's just the woman I am
