

Touching Love

Wynette Tammy

There's not an hour when you're gone that I don't miss you
And I can't wait for each day to end
And I've spent so much time watchin' the driveway
That I almost burned our dinner once again

Lights down low we both know don't we baby
It won't be long till we'll be touchin' love again
We sure must be living close to heaven
The love we share is such a precious thing

And God has blessed our home with our babies
Now one's asleep and one's in school and one just turned thirteen
Lights down low we both know don't we baby
It won't be long till we'll be touchin' love again
It won't be long till we'll be touchin' love again
