

# We Called It Everything But Quits

Wynette Tammy

We called it trouble when the bills were overdue  
Worried, sick didn't think that we'd pull through  
When that old car was too run down to be fixed  
We called it everything but quits

We called it hard times when the crops just wouldn't grow  
Prayed for rain looked like the answer was no  
Up came a storm that blew the barn to bits  
We called it everything but quits

We called it God's Will when daddy passed away  
We cried together kneeling at his grave  
It sure looked hopeless when the barn could not be saved  
We called it everything but quits

They called us crazy when we married in our teens  
Lookin' back love was strong years were lean  
At times we felt like givin' up thank God we never did  
We called it everything but quits

We called it God's Will when daddy passed away  
We cried together kneeling at his grave  
It sure looked hopeless when the barn could not be saved  
We called it everything but quits

La da da da da...  
We called it everything but quits  
La da da
