You Brought Me Back

Wynette Tammy

You came around when I was feelin' low
You must have known I needed you then
You took away the hurt down in my soul
And brought me back to love again

You brought me back when I was down
You made a smile out of a frown
Out of my mind you brought me in
And showed me how to love again

You were the light shining up around me
To let me see to set me free

You brought me back when I was down
You made a smile out of a frown
Out of my mind you brought me in
And showed me how to love again
You showed me how to love again
