

# You Never Knew

Wynette Tammy

I fell in love the day we met but you never knew  
You thought that I was just a friend cause you never knew

I used to look at you but I couldn't touch  
But now I'm touchin' you tonight  
I used to be the only one who was filled with desire  
But tonight you're on fire

You never knew how much I needed you to feel  
This crazy way I feel for you  
Out of the blue you think this love has come to you  
But it's been long overdue  
You never knew

I used to look at you but I couldn't touch  
But now I'm touchin' you tonight  
I used to be the only one who was filled with desire  
But tonight you're on fire

You never knew how much I needed you to feel  
This crazy way I feel for you  
Out of the blue you think this love has come to you  
But it's been long overdue  
You never knew  
You never knew
