

# You Are So Beautiful

Wynonna Judd

So, I've been thinking about you  
And all that we've been through together  
Just look at where we are and where we started  
Oh, how beautiful  
Can't get away, you reel me in with every word you say  
One glance and you can move me and undo me  
Oh, how beautiful

You are my shining star  
You are light behind my eyes  
You are the dazzle in my diamond heart  
And I think it's love

My dream come true  
No doubt about it, I'm in love with you  
I'm learning how to leave our past behind me  
It's beautiful

You are my shining star  
You are light behind my eyes  
You are the dazzle in my diamond heart  
And I think it's love

I've been thinking about you  
And all that we've been through together  
Just look at where we are and where we started  
It's how beautiful

You are my shining star  
You are light behind my eyes  
You are the dazzle in my diamond heart  
And I think it's love  
You are my shining star  
You are light behind my eyes  
You are the dazzle in my diamond heart  
And I think it's love

So beautiful  
You are  
So beautiful
