

## Black and Silver

Xandria

I am amused  
You seem to love me  
But be reserved  
Before you huff me

I'm used to winners  
I need the fame  
And if you touched me  
You'd be my shame

Your childish dreams are all in vain  
To me your kind is all the same

A starlit sky  
Of black and silver is my core  
My last goodbye  
Makes you want me even more  
For silver is my fame  
Black is my name

I am a queen  
And if you creep  
I'll push my blade  
Still-water-deep

I am a dream  
A fairy-tale  
Your endless quest  
Your holy grail

Thanks so much for your confusion  
I will be your lost illusion

Deep inside  
The silver shines as black as can be  
My disguise  
The wolf among the sheep, you want me  
To me your kind is all the same  
To me your kind is all the same
