

# Euphoria

Xandria

Serpent angel rape me  
Serpent venom in me

O Euphoria, our goddess you are  
Take the burden away to live in this hell  
Say goodbye to the dreams, destroyed fantasies  
Bitter nightfall at hand, will cover the land

Forces come - silent  
Cross your mind - blinding  
Anaesthetize - senses  
Steal them all away

Caress you - grievous  
Infest you - with lust  
Ending soon - chaos  
Servant life is waiting

Consume the drugs we sell to you  
Keep you begging for more  
And soon you will forget  
The world you were longing for

Childish dreams - sinful  
I have seen - passion  
Fearlessly - chainless  
All this hope is forever lost

O Euphoria, our goddess you are  
Take the burden away to live in this hell  
Say goodbye to the dreams, destroyed fantasies  
Bitter nightfall at hand, will cover the land

Neverworld's End

We sell you a false dream for your own  
So we can control your fantasies  
There's no hideaway this world is ours  
Give in to our plastic paradise

Endlessly travelling the plains of my dream  
Slowly it's fading in my memory

O Euphoria, our goddess you are  
Take the burden away to live in this hell  
Say goodbye to the dreams, destroyed fantasies  
Bitter nightfall at hand, will cover the land

O Euphoria, sweet lies that you are  
Let the child fade away, just memories stay  
O Chimaria, predacious heart  
Take our souls with you, Forever repent

Neverworld's End
