I cannot turn away From this obscurity A nameless Force Is stealing my face

Come and - try to - fight me You will - never - break me

I know it's the final breath I'm taking if I let you win So I cannot be the one forgiving or I'm giving in

Now I can see you
You were just hiding
You won't betray me
Cause now I know your name

Come and - try to - fight me You will - never - break me

I know it's the final breath I'm taking if I let you win So I cannot be the one forgiving or I'm giving in
