

## Now & Forever

Xandria

Millions of songs, all those years in my soul  
And when we met, I just knew they're for you  
Now your voice is singing them all  
Your wings at mine, we will never fall  
On and on, we will fly now & forever  
Side to side, now & forever, my love  
Thousands of miles through the cold stormy air  
There's really nothing that I wouldn't dare  
I climb the eye of the hurricane  
When the winds are whispering your name  
On and on, we will fly now & forever  
Side to side, now & forever, my love  
Now & forever, now & forever  
(Now & forever)  
Fly, fly, now & forever  
(Now & forever)  
Now & forever  
We will fly now & forever  
Side to side, now & forever  
... now & forever  
... now & forever
