

Just a Friend

XYZ

Remember running out of school
To ... sharing games
We grew up happy playing fool
Together all the way for years
But today when I look at you
The kid is gone and school is out

Oh, tell me what to do
Am I still friend for you?
I'm so in love with you
Am I just a friend for you?
I'm so in love
So in love with you

I shared time with you every day
Trying hard not to fall in love
Too close for going all the way
There is still a game we never played
I dream of what your love would be
If you would fall in love with me

Oh, tell me what you do
Am I still friend for you?
I'm so in love with you
Am I just a friend for you?
I'm so in love
So in love with you
