

My Sweetheart

Yael Naim

I'll try to find a way
To fly but yet to stay
I'll try to find a way

I'll try to just rewind
Forget it, we'll be fine
I'll try to just rewind

God help me not to fall
How come we've grown so tall
God help me not to fall

What happens to my heart
There was joy before the start
What happens to my heart

Let's cut this, it won't hurt
I must forget this flirt
Let's cut this, it won't hurt

Don't ask me how or why
I don't know how to lie
Don't ask me how or why

I love you! Now you know
My sweetheart, let me go
