

# Mystical Love

Yael Naim

Someday I'm gonna take a road in the mystical  
And it will never be as cold as in this mystical  
But I will try to find my way in this mystical love  
The mystical love

But every time I look around it's so mystical  
I don't know what I thought I'd find in the mystical  
'cause I will always feel alone in the mystical love  
The mystical love  
He's back home

I will find a way to see who you are  
Thought every day you're hiding far  
You are the same  
But locked in your mind  
It hurts me every single time  
The mystical love

But I will always feel ashamed in this mystical  
And I will never win the game in this mystical  
Someday I will forget my name in this mystical love

But I will try to find my way it's so mystical  
Then I will try to get away from this mystical  
But then eventually I will stay in the mystical love  
The mystical love

Fly fly lullaby  
I could walk in if you want me by  
Something that you never try to find  
Come come little born  
I would wake you if you wanted warmth  
If you're someone that I knew before  
Love love but  
Try not to trouble, so I could see your face  
I'm walking by  
I could walk in if you want me by  
The mystical love  
He's back... well he's coming back

I will find a way to see who you are  
Thought every day you're hiding far  
I want to go but I'm moving too slow  
One day you'll hear me saying time

Never been a single time  
Never heard a single chime  
Never been a single day  
Never seen a single ray  
Si I'm going I won't stay  
And one day you'll have to pay  
Never been a single day  
The mystical love... he's back home
