

## Foundation

## Years & Years

There's a scratch on your shoulder  
Crushes me like, crushes me like lead  
And I wanna get older  
All the things I want I really shouldn't get

If I triumph, are you watching?  
Can you separate everything for me?  
You used to work me out  
But you never worked it out for me

There's a scratch on your shoulder  
Crushes me like, crushes me like lead  
And I wanna get older  
All the things I want I really shouldn't get

If I triumph, are you watching?  
Can you separate everything for me?  
You used to work me out  
But you never worked it out for me

And your head looks good  
I wanna love it so much  
I wanna be the one  
I wanna do what you love

And I was lying  
I don't really wanna be fine  
It's all over

And there's a scratch on your shoulder  
It crushes me like, it crushes me like lead  
And I wanna get older  
All the things I want I really shouldn't get
