

## Dark Side

Yello

Show me your dark side  
I wanna lose my pride

Show me your dark side  
I wanna lose my mind

I do what I can  
According to your plan  
I wanna be a child  
In the universe of your smile

"Love" is a word seems far too small  
To even begin to address this turmoil

You will be playing on my mind  
You will be playing on my mind

You drive me to the wild side  
You take me for a ride  
My rational mind is gone  
I'm just falling for your song

You will be playing on my mind  
Why don't you show me how to find

Before you kiss me, feed me, enrage me  
Before you taste me, test me, and praise me

You will be playing on my mind  
You will be playing on my mind  
You will be playing on my mind

Show me your dark side  
I wanna lose my mind  
Show me your dark side  
I wanna lose my pride

You drive me to the wild side  
You take me for a ride  
My rational mind is gone  
I'm just falling for your song

"Love" is a word seems far too small  
To even begin to address this turmoil

You will be playing on my mind  
You will be playing on my mind
