

Eternal Legs

Yello

Across the space
We fly around the world
For years... years... years... years...

We're out of control
Inside an iron ball
Desire

We see the moon
A color ball
We won't be free again
No choice

An iron box
Electric brain release
Away... away... away... away

A piece of steel
That's all we ever feel
No pain

We see the moon
A color ball
We won't be free again
No choice

Desire
We see the moon
A color ball
We won't be free again
