

# Night Train

Yello

I'm riding the night train  
The smile is still burning  
Dance in it my way  
A mile for the lonely  
A crown for the clown  
I smile  
And I run

For years now I'm driven  
A smile, unforgiven  
I'm dancing with strangers  
A rise will still see  
Awaiting your big smile  
I'm rushing downtown while you're gone  
For years now I'm driven  
A smile unforgiven  
The one

Come riding the night train  
The windows, the mirror  
I'm dancing with strangers  
I'm waiting, for you  
Awaiting your best smile  
I'm rushing downtown while you're gone  
For years now I'm driven  
A smile, unforgiven  
The one

A crown for the clown  
A smile for the crowd  
And your gone  
For years now I'm driven  
A smile, unforgiven  
The one
