

The Lorry

Yello

Inside my lorry
I am driving through the night
Inside my lorry
The world does look all right
Five to five I got to drive
And if you ask me where I go
I tell you coast to coast is what I do
Coast to coast, you know

Motors' noise
My only choice
I wanna hear it all night long
Orchestra for my voice
For my only song
Hey, gotta drive, see y'all night

Coast to coast, that's my life
Coast to coast, all right
Motors' noise
My only choice
I wanna hear it all night long
Orchestra for my voice
For my only song
