

Tied Up In Gear

Yello

Keep your cool, keep cool your mind
Shift the beat, you're one of a kind

Shake it up, beat down the beat
Shake it up to the Babaumba Heat

Stay out!

Stay out!

Ring the bell
Roll down the street
Tie me up into the city heat

Keep your cool, keep cool your mind
Shift the beat, you're one of a kind

Stay out!

Tied Up.....

It's the African Queen, we got the summer night grand
It's the African Queen, the hottest lady in town
It's the African Queen, who keeps me on my feet
It's the African Queen, the Babaumba Beat

Tied Up, Tied Up.....

Try to beat, try to fight
Take me back into the ring tonight
Shake it up, beat down the beat
Shake it up to the Babaumba Heat

It's the African Queen, we got the summer night grand
It's the African Queen, the hottest lady in town
It's the African Queen, who keeps me on my feet
It's the African Queen, the Babaumba Beat

All you need is love
Take my heart and hold me tight forever, forever
