

## Something of Value

Yellowcard

All that I needed to hear from you  
Something of value but something untrue  
All that I wished that I'd find within you

See how what she wanted and she needed  
Tore it all down in the end  
Some how like a sickness she infects me  
She's simple but deadly my friend

All that I needed to hear from you  
Something of value but something untrue  
All that I wished that I'd find within you

Stings when I see all the ways that you  
Took me for granted and told me its through  
Picked from my pockets and smiled  
Empty is nothing and nothing is you  
I think I'll just sit for a while  
Ror a while

See how what I wanted and I needed  
It wasn't enough in the end  
Some how with a quickness I forgot her  
I realized she wasn't my friend
