

Dark Skies

Yendri

Don't think of
blue sky
don't think of
green nature

There won't be any creature
not any bird will fly

don't think of
green nature
don't think of
blue sky

not any bird will fly
there won't be any creature

Cursed land, dark skies
nothing in your hand
now that the mankind cries
you know where we stand

Don't even dare to drink
don't even dare to breath
Your energy will shrink
The air will bring you death

don't even dare to breath
Don't even dare to drink
The air will bring you death
Your energy will shrink

Cursed land, dark skies
nothing in your hand
now that the mankind cries
you know where we stand
