

No Tears for You

Youth Brigade

When I see you I can feel you're full of hate
Got a piece and a knife
How easy it is to take a life
The violence and despair is an everyday affair
It's not hard to realize dying young is no surprise

No tears
No tears for you
No tears

This talk full of hate
"They should be made to pay!"
Commit the crime, do the time, no matter that there's
lives at stake
There's no justice when a man is beaten his whole life
Gotta try to understand that laws are different for
different men

No tears
No tears for you
No tears

Ignorance is fear
Look closer you'll see
And if you close your eyes it still won't go away
The lies still exist
It won't go away
