

Say A Word

Yuksek

I said you said I said she says
I said you said I said she says
I said you said I said she says
I said you said I said she says
When daddy heard the bells of young curves
Mam said we leave the place
Mam said we leave the place
When I realized the game you were playing

The violence cries your name
The consequences of your secret love
I couldn't even say a word
I said you said I said she says
I said you said I said she says
I said you said I said she says
I said you said I said she says
