

Drop It/Scooter

Yung Lean

Drop it on the scooter, eyes like Freddy Krueger
When I come up in the booth you know I drop it
Psycho like I'm Luger, I been flexing with my new girl
When we walk up in the mall you know we cop it
Drop it on the scooter, eyes like Freddy Krueger
When I come up in the booth you know I drop it
Psycho like I'm Luger, I been flexing with my new girl
When we walk up in the mall you know we cop it

I been dropping out of helicopters
Hopping out of buses
Dropped like 20 on a pinky ring
My stacks sure got a muscles
And my words are like a skeleton
My keychain made in Brussels
I got diamonds on my telephone
You know that Lean done hustled
Neck filled with rose gold
It look like a logo
Hanging like the old folks
Icy like the north pole
Live my life in slow-mo
Happy when I'm solo
Sun hotter than Togo
My zone is a no go

Drop it on the scooter, eyes like Freddy Krueger
When I come up in the booth you know I drop it
Psycho like I'm Luger, I been flexing with my new girl
When we walk up in the mall you know we cop it
Drop it on the scooter, eyes like Freddy Krueger
When I come up in the booth you know I drop it
Psycho like I'm Luger, I been flexing with my new girl
When we walk up in the mall you know we cop it

Skis on me, it's hot, drop the fucking top
Keychain on my Paris Hilton dog, I've seen a lot
Why not come with us, xannies in the tuss
I feel like Johnny Depp like from the Blow
Sipping on the 40, my life is a late night show
I can't understand it when I'm low...
Bitches, they come after us
We used to lay on the bus
Hours and hours of dumbing
Ain't no more running I'm vicious for lust
Lean, lost in the woods, you know I can not speak
My boys blowing loud, eyes looking like peeks
Soldiers of another world, I'm falling into seas
Dark counters, white shadows leaning over me

Drop it on the scooter, eyes like Freddy Krueger
When I come up in the booth you know I drop it
Psycho like I'm Luger, I been flexing with my new girl
When we walk up in the mall you know we cop it
Drop it on the scooter, eyes like Freddy Krueger
When I come up in the booth you know I drop it
Psycho like I'm Luger, I been flexing with my new girl

When we walk up in the mall you know we cop it

Psycho like I'm Luger, I been flexing with my new girl
When we walk up in the mall you know we cop it
Drop it on the scooter, eyes like Freddy Krueger
When I come up in the booth you know I drop it
