

## Push/Lost Weekend

Yung Lean

Push, push, put the pedal down like push  
Push, push, I'm with my baby and we up

Yung Lean baby on my blue shirt  
Dropped the window down and do the sugar  
Pushed the pedal down, she got hunnids on her flow  
I've been riding around, I got xannies on my flow  
Chain all froze, lips don't close  
Leandoer baby I got whips on a go  
I can take you anywhere that you like  
Private island, Percocet with a sprite

Push, push, we balling like swoosh, swoosh  
Push, push, I'm with my baby and we up

See-through windows, it's so breezy  
Turquoise pills, right now, life is a [?]  
I can get you anything, we hit the Gucci store  
Bats flying 'round, lost weekend, you my rose  
She know, sitting everywhere that I look  
She go faster then lightning, we go swoosh

Push, push, put the pedal down like push  
Push, push, I'm with my baby and we up  
Push, push, we balling like swoosh, swoosh  
Push, push, I'm with my baby and we up

Ya, ya, ya, got my bands up quick  
Ya, ya, ya, got my bands up quick  
Ya, ya, ya, got my bands, bands quick  
Ya, ya, ya, got my bands up quick
