

My Life Has Changed

Zebra

My life has changed in many ways
And I don't know just what to say

People everywhere
They don't even care
They don't even know
What I'm doing up in my way

My life has changed in many ways
And you won't know just what to say
Hey Ahhh

Your life will change in many ways
And you won't know just what to say

People all around
Listen to the sound
They won't even know
What you're doing up in your way

My life has changed in many ways
And I don't know just what to say

Solo

My life has changed in many ways
And I don't know just what to say

People everywhere
They don't even care
They don't even know
What I'm doing up in my way

My life has changed in many ways
And I don't know Just what to say
