

# Don't You Wish

Zed

Don't you sometimes wish that they would leave us all alone  
In an undefined unequal kind of way we would be home  
Run down to the mailbox see if they forgot again  
And remind me not to answer when they

## CHORUS

Call I will be gone  
Just leave the door ajar and run  
Cos when they find you they'll just tie you down  
And I'll never hear you call

What I need is something that will make me smile again  
Keep me up 'til midnight dreaming  
And nothng hurts like they do even when they're all alone  
So believe me when I tell you not to

## REPEAT CHORUS

Cos when they find...

Don't you sometimes wish...

Don't you sometimes wish...

Don't you sometimes wish...

Don't you sometimes wish that they would leave us all alone

(Do do do do...do do do do....don't you sometimes wish...do do  
do do...do do do do...)

Don't you sometimes wish that they would leave us all alone
